

# Scholarship Opportunity For College Students Fighting Anti-Semitism on University Campuses

## INTRODUCTION:

In the aftermath of the Hamas attacks on Israel on October 7, there has been a concerning rise in anti-Semitism, particularly on university campuses. This increase in anti-Israel rhetoric and verbal threats against Jews presents a challenge for universities. B'nai B'rith has long stood for religious freedom. Now, the challenges of our time require the next generation to join the effort to combat the world's oldest hatred.

In a world marked by evolving dynamics and new forms of prejudice, the B'nai B'rith **None Shall Be Afraid** initiative seeks to empower and mobilize individuals and communities to confront anti-Semitism and anti-Zionism head-on. **None Shall Be Afraid** is a call to action, an invitation for the next generation to engage in the fight against hatred and prejudice. Together, we can strive to create a world where every individual can indeed "sit in safety under their own vine and fig tree," free from the fear of persecution and intolerance.
